

Trader Agreement

This Customer Agreement ("Agreement") is hereby entered into effective as of the last signed date below by and between Summit Strike Capital ("SSC"), referred to as the "Company," and _____ (full name) herein referred to as the "Customer." Each party may be individually referred to as the "Party," and collectively as the "Parties." In consideration of the mutual covenants and agreements contained herein, and for other valuable consideration, the Parties agree as follows:

SCOPE OF WORK:

In case of any inconsistencies between the terms of the Trader Agreement and the Scope of Work outlined below, the Scope of Work shall take precedence over the following sections:

1.1) Services Provided

Upon successful completion of the evaluation program(s) and acceptance of Trader's qualification, Summit Strike Capital ("the Company") shall establish a virtual funded Simulated Account ("Simulated Account") and furnish the Trader with the necessary credentials to access and execute trades within the Simulated Account.

1.2 The Simulated Account

The Trader is required to furnish the Company with compliance documents mandated by the Trader's country of residence to operate as an independent contractor. Typically, these documents include a valid photo ID and an address verification document (such as a bank statement or utility bill dated no more than 90 days prior).

Upon establishment of the Simulated Account, the Trader will receive a "Welcome Email" containing pertinent details, including but not limited to:

- Simulated Account Login Credentials
- Allocated Virtual Capital
- Trader Portal Credentials

The Trader assumes full responsibility for managing the Simulated Account to ensure correct execution of trades and to prevent any unauthorized trading activity. The Trader is prohibited from relinquishing control of the Simulated Account to any third party and from managing the Simulated Account of any other Trader authorized by the Company. The Trader shall maintain strict confidentiality of the Simulated Account credentials and prevent unauthorized usage at all times. In the event of any deliberate or inadvertent disclosure, loss, theft, or unauthorized use of the Simulated Account credentials, the Trader must promptly notify the Company and request a new password.

To retain the Simulated Account and uphold status as an authorized Trader of the Company, the Trader must consistently adhere to the Risk Management and Program Rules, which constitute an integral part of this Agreement. The Trader is obligated to thoroughly review these rules and promptly address any queries or objections with the Company before executing trades in the Simulated Account. By placing orders in the Simulated Account, the Trader acknowledges, represents, warrants, and certifies understanding and acceptance of these Risk Management and Program Rules, as stipulated herein and subject to amendments by the Company, communicated to the Trader periodically. Violation of these

rules shall result in the closure of the Trader's Simulated Account and termination of authorization as a Trader with the Company. Additionally, certain actions may result in the immediate closure of the Trader's Simulated Account or a reduction of the profit share to 20-25% of the trader's total profit share. These actions include, but are not limited to:

- Exploiting pricing or platform errors or latency provided by the Broker.
- Engaging in trading based on non-public or insider information.
- Front-running trades executed elsewhere.
- Engaging in trading activities that jeopardize the Simulated Account's relationship with a broker or may lead to trade cancellations.
- Conducting trades that pose regulatory concerns for the Broker.
- Employing third-party strategies, off-the-shelf strategies, or strategies marketed for the purpose of passing assessment Simulated Accounts.
- Employing one strategy to pass an assessment and subsequently employing a different strategy in a funded Simulated Account, as determined by the Company in collaboration with Summit Strike Capital at their discretion.

2) Profit Splits & Withdrawals

As an authorized Trader for the Company, the Company agrees to remunerate the Trader with a specified percentage of profits generated in the Simulated Account, as outlined herein. Withdrawal requests for profits shall be processed every 21 days for Standard Challenge and every 14 days (bi-weekly) for the Instant Funding Simulated Accounts following the initiation of the first trade. Withdrawals will be facilitated via Rise Work and Cryptocurrencies. Upon processing a withdrawal request, the Company shall also withdraw its proportionate share of virtual trading profits from the Simulated Account. Profit sharing percentages on the Standard Challenge and Instant Funding increase incrementally as outlined in the agreement.

For instance:

Initial Simulated Account balance: \$100,000

Profit split: 75%/25% for first withdrawal, in Favor of Trader

Simulated Account equity after one month: \$120,000

In this scenario, if the Trader requests a \$10,000 withdrawal, \$10,000 in profit will be withdrawn from the Simulated Account, with \$7,500 allocated to the Trader and \$2,500 to the Company. The new Simulated Account Balance High Water Mark will be adjusted back to \$110,000 for purposes of adherence to risk management and program rules going forward. Please note that upon requesting a withdrawal, Trader's maximum drawdown equity breach level will remain the same (i.e. 88k on an evaluation account type and 92k on an Instant Funding Simulated Account).

3) Transmission of Orders

The Company bears no responsibility for delays in order transmission attributable to disruptions, failures, or malfunctions of communication facilities, and shall not be held liable for any claims, losses, damages, costs, or expenses, including legal fees, arising except as a direct consequence of the Company's gross negligence.

4) Position & Trading Limits

The Company reserves the right to impose limits on the number of open positions a Trader may initiate or maintain in the Simulated Account. Additionally, the Company or the designated broker reserves the right to refuse acceptance of any order.

5) Trading Hours

All references to trading hours are in U.S. Eastern Time ("ET") using a 12-hour format. Market access typically spans from 5:00 PM ET on Sunday to 4:00 PM ET on Friday, although the Company reserves the right to suspend or modify trading hours, with prior notification to clients, on a best-efforts basis. Trading hours may vary by contract type.
